Fluke Power Quality Current Transformers are specially designed to work seamlessly with Fluke Power Quality/RPM Full Disclosure Power Monitors. All Clamp-on CT's are matched to take full advantage of your instrument's ability to set scale factors for accurate readings.

The 3100R Clamp-on Current Transformer features:

- Current range: 1-1000A
- Accuracy: 1% RDG +/- 0.05% FS
- Frequency response: 5 kHz
- Jaw opening: 2" dia. (5 cm)
