LEGAL NOTICE

Warranty

Equipment Limited Warranty

Doble Engineering Company (Doble) warrants the products that it manufactures to be free from defects in material and workmanship for a period of one year from the date shipped from the factory.

During the one-year warranty period, Doble will repair or replace, at its option, any defective products or components thereof at no additional charge, provided that the product or component is returned, shipping prepaid, to Doble. The Purchaser is responsible for insuring any product or component so returned and assumes the risk of loss during shipment. All replaced products and components become the property of Doble.

THIS LIMITED WARRANTY DOES NOT EXTEND TO ANY PRODUCTS WHICH HAVE BEEN DAMAGED AS A RESULT OF ACCIDENT, MISUSE, ABUSE, OR AS A RESULT OF MODIFICATION BY ANYONE OTHER THAN DOBLE OR AN AUTHORIZED DOBLE REPRESENTATIVE.

EXCEPT AS EXPRESSLY SET FORTH ABOVE, NO OTHER WARRANTIES, EXPRESSED OR IMPLIED, ARE MADE WITH RESPECT TO THE PRODUCT INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IN THE EVENT THE PRODUCT IS NOT FREE FROM DEFECTS AS WARRANTED HEREIN, THE PURCHASER'S SOLE REMEDY SHALL BE REPAIR OR REPLACEMENT AS PROVIDED ABOVE. UNDER NO CIRCUMSTANCES WILL DOBLE BE LIABLE TO THE PURCHASER OR ANY USER FOR ANY DAMAGES, CAUSED BY OR ARISING OUT OF THE USE OF OR INABILITY TO USE THIS PRODUCT, INCLUDING WITHOUT LIMITATION, PERSONAL INJURY OR PROPERTY DAMAGE, ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES, EXPENSES, LOST PROFITS, LOST SAVINGS, OR OTHER DAMAGES.

Software Limited Warranty

Doble warrants the disks on which the software product is furnished to be free from defects in materials and workmanship under normal use for a period of one hundred and twenty (120) days from the date of shipment from Doble. Purchaser's exclusive remedy shall be the replacement of any disks not meeting Doble's Software Limited Warranty which have been returned to Doble within the warranty period.

This warranty gives the purchaser specific legal rights and the purchaser may also have other rights which vary from state to state.

EXCEPT AS DETAILED ABOVE AND TO THE EXTENT ALLOWED BY ANY APPLICABLE STATE AND FEDERAL LAWS: THIS SOFTWARE PRODUCT IS PROVIDED "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THIS SOFTWARE PRODUCT IS WITH PURCHASER SHOULD THE PRODUCT PROVE DEFECTIVE. PURCHASER (AND NOT DOBLE OR AN AUTHORIZED DEALER) ASSUMES ALL LIABILITY ASSOCIATED WITH THE SOFTWARE AND THE ENTIRE COST OF ALL NECESSARY SERVICING, REPAIR, OR CORRECTION.

Limitations of Remedies

If Doble notifies Purchaser that is unable to deliver replacement disks which are free from defects in materials and workmanship, Purchaser may terminate this agreement. By returning the software product and all copies thereof in any form and affirming compliance with this requirement in writing, Doble will refund the purchase price.

TO THE EXTENT ALLOWED BY ANY APPLICABLE STATE AND FEDERAL LAWS, DOBLE EXPRESSLY DISCLAIMS ALL WARRANTIES NOT STATED HEREIN. IN NO EVENT WILL DOBLE BE LIABLE TO PURCHASER FOR ANY DAMAGES, INCLUDING ANY LOST PROFITS, LOST SAVINGS OR OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE ANY SOFTWARE OR PRODUCT, OR FOR ANY TECHNICAL OR EDITORIAL ERRORS OF COMMISSION OR OMISSION, EVEN IF DOBLE OR AN AUTHORIZED DEALER HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, OR FOR ANY CLAIM BY ANY OTHER PARTY.

Maintenance

For equipment maintenance, contact:

Doble Engineering Company
85 Walnut Street
Watertown, MA02472 (USA)

Preface

Who Should Read This Guide

This guide is intended for anyone who works with the [Product Name]. It is assumed that the reader is familiar with professional standards and safety practices.

Document Conventions

Notes and Warnings

This document uses icons to draw your attention to information of special importance, as follows.

NOTE! Notes provide supplemental information that may apply to only some circumstances.

CAUTION! Cautions provide information that prevents damage to hardware or data.

WARNING! Warnings tell you how to prevent injury or death to anyone near the test set or high-voltage equipment.

1. Converter

The F6051 Converter is designed to convert modulated and demodulated IRIG-B signals to GPS signals, allowing you to have synchronized GPS signals for the F6150 instrument.

IRIG-B signals enter through the 50-Ohm BNC connector on one end.

GPS signals exit the converter through the GPS OUT (RS-422) connector on the other end of the box. There is a connector for the provided power supply, and an LED that lights when there is power.

2. Synchronization Period

When the converter is powered up, with an IRIG signal present, the SYNCH LED flashes 1 second on and 1 second off for 2.5 minutes, then lights continuously when the converter is synchronized with the IRIG-B signal. During this synchronizing period, the F6051 is synchronizing to the IRIG source, with the F6150 display showing an incrementing number of satellites, from 2 to 12. This display is not an actual count of how many satellites can be seen, but gives progress of the synchronizing process. When the F6150 displays 12 satellites, the F6150 begins synchronizing with F6051 GPS signal. This synchronizing may take several minutes, but typically completes in under a minute. When the F6150 displays the time, synchronizing is complete.

During synchronizing, if the IRIG signal is lost, the SYNCH LED goes off and the F6150 satellite count goes to 0. If the IRIG signal is re-gained, the process starts over. If the IRIG signal is not lost, but the GPS signal from the F6051 to the F6150 is lost, the F6150 displays “GPS Disconnected”. If the GPS signal is regained, the F6150 displays 12 satellites and immediately begins synchronizing with the F6051 GPS signal.

3. Specifications

Support Signal Types

Un-modulated IRIG-B000 and modulated IRIG-B120 formats are supported. There is no support for Manchester encoding. IRIG-A, D, E, G, and H are not supported.

Signal Accuracy

Type	Offset
IRIG-B000, 004 Un-modulated	+ 6 μ S
IRIG-B120, 124 Modulated	+ 9 μ S

Commercial Temperature Range

This board is ROHS compliant.

Operating: 0°C to 50°C

Storage: -20°C to 80°C

Dimensions

Length: 164 mm¹ without end caps, 173 mm¹ (6.8 inches) with end caps

Width: 107.5 mm without end caps, 114 mm (4.5 inches) with end caps

Height: 29.5 mm without end caps, 36 mm (1.43 inches) with end caps

1 - Does not include projection of connectors

Note: All dimensions approximate.

Weight

0.45 kg (16 ounces)

4. Connectors

Main Module Connector

There are three connectors associated with the F6051, 12 volt power, RS422 data and the BNC IRIG-B interface. There is also a 9-pin RS232 computer interface which is not accessible externally.

F6150 Interface Connector

This port emulates the GPS receiver. It is used to connect this unit to the F6150. The connector is a fifteen-pin male D-Sub connector. It implements a standard RS-422 serial port plus a separate RS-422 driver for the 1PPS signal. A standard, straight through, fifteen-pin male to female cable should be used to connect this port to the computer.

Pin Number	Signal Name	Description
1	Chassis	--
2	RX +	Input
3	TX +	Output
4	--	--
5	1PPS-	Output
6	Ground	--
7	--	--
8	--	--
9	RX -	Input
10	TX -	Output
11	--	--
12	1PPS-	Output
13	--	--
14	--	--
15	--	--

Computer Interface Connector

This port is configured as a Data Communication Equipment RS-232 port. It is used to connect this unit to a computer. The connector is a 9-pin female D-Sub connector. A standard, straight through, nine pin male to female cable should be used to connect this port to the computer.

Note: This is only accessible inside the box.

Pin Number	Signal Name	Description
1	DCD	Output
2	RX	Output
3	TX	Input
4	DTR	Input
5	Ground	--
6	DSR	Output
7	RTS	Input
8	CTS	Output
9	RI	Output

Electrical

Input power is 12V DC. This is supplied from a wall transformer. The current rating is 1 amp max. The transformer is rated for 120-240 volt AC.

5. What's Included

- F6051 unit (03D-2003-01)
- Power supply (384-0252)
- Nylon bag 12 x 7 inches to hold F6051 unit and Power supply (09B-0852-01)
- 10-foot BNC male-male cable (181-0118)
- 6 -foot DB 15 male-female (181-0828)
- F6051 User Manual (72A-3250-01)
- Nylon bag 12 x 18 x 4 inches to hold all of the above (2FB-3450-01)
